

RECREATIONAL FIRES MINIMUM LOT SIZE

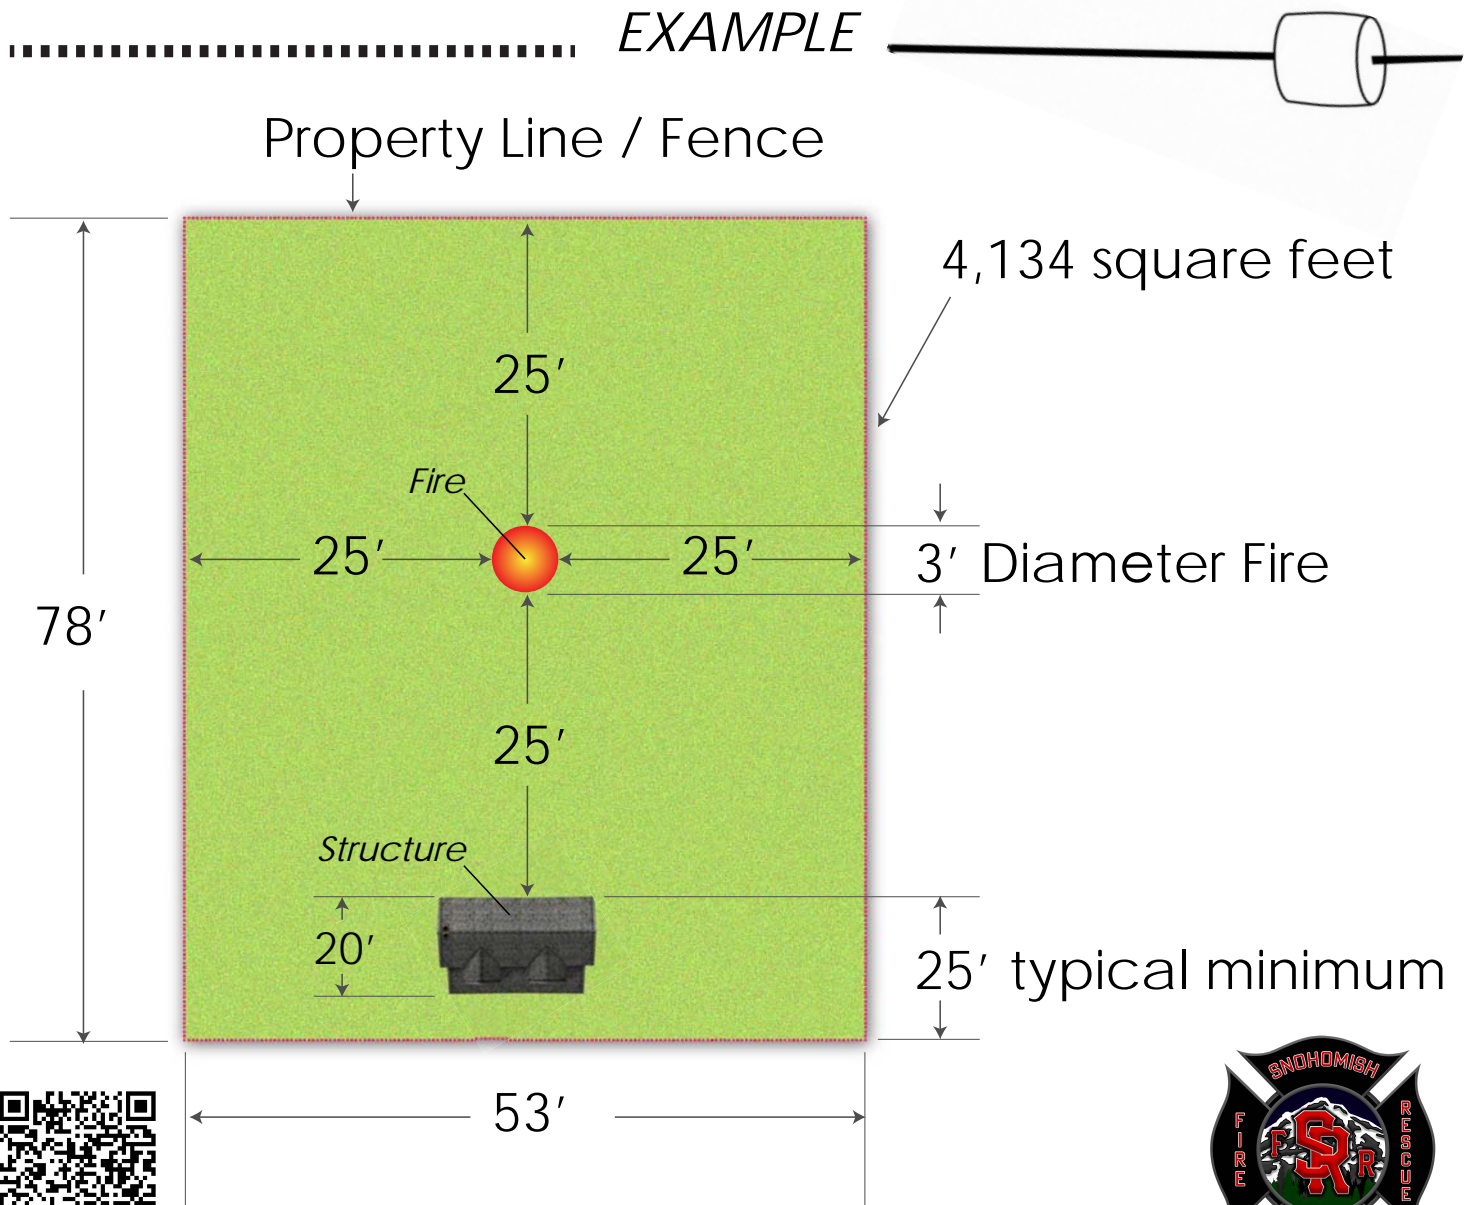

Recreational fires consist of dry firewood or charcoal for the purpose of ceremony, cooking, or recreation, at a size not exceeding 3' diameter and 2' tall. Reference: WAC 173-425-030(21).

MINIMUM

Typical minimum lot size required for Recreational Fires is 4,134sf

- 25' minimum setback from fire to property lines, structures, including fences, plus 3' diameter fire = 53' minimum
- 25' minimum setback from fire to property lines, structures, including fences, plus 3' diameter fire, plus house with minimum 20' dimension and 5' property line setback = 78' minimum
- 53' x 78' = 4,134sf
